North Dakota and South Dakota Chapters of the American College of Surgeons
2013 Annual Meeting
April 26 - 27, 2013  Ramkota Hotel, Bismarck

Objectives
This program is designed for practicing surgeons. It is meant to identify and define updates in the various disciplines of surgery with application to daily practice and to enhance the knowledge of the participants in these areas.

Accreditation
The American College of Surgeons is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

CME Credit
The American College of Surgeons designates this live activity for a maximum of 10 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Donald R. Lomb, MD, FACS
Patrick Lomb, MD, FACS
12:00 pm  Closing Remarks

Featured Presenter
Gregory Jerome ("Jerry") Jurkovich, M.D. is currently the Director of Surgery for Denver Health and Hospital Authority. As such, he is responsible for directing all of the surgical specialties with the exception of orthopedic surgery. Dr. Jurkovich also directs Denver Health’s Rocky Mountain Regional Level I Trauma Center, which cares for more than 2,000 of the region’s most severely injured patients each year. Dr. Jurkovich is also the Rockwell Distinguished Professor of Trauma Surgery and Vice-Chairman of the Surgery for the University Of Colorado School Of Medicine.

Prior to Denver Health, Dr. Jurkovich served as the Chief of Trauma for Harborview Medical Center in Seattle, Washington and Professor of Surgery at University of Washington.

Dr. Jurkovich graduated cum laude in Biomedical Engineering from Northwestern University, Chicago and received his MD degree from the University of Minnesota, Minneapolis. His surgery residency was at the University of Colorado, with a trauma research fellowship at Duke University. Dr. Jurkovich has looked extensively at some of the major problems in trauma, including best measures of outcomes in trauma patients, the role of hypothermia in trauma, alcohol and injury, the immune-inflammatory response to injury, nutritional support in the critically injured, and trauma systems designs.
