

## Awards

Each year, the North Dakota Medical Association honors a physician and a non-physician who have made outstanding contributions to the medical profession, patients, and their community.

This year, at its Annual Meeting on October 4th at the DoubleTree in West Fargo, the NDMA will recognize the recipients of the following two awards:

### **NDMA Physician Community and Professional Services Award**

This award was established in 1977 to annually recognize and honor physicians for outstanding leadership and services to the people of North Dakota and to the profession of medicine.

#### **Criteria**

1. The recipient must be a physician member of the NDMA;
2. The recipient must be living;
3. The recipient must not have been a previous award recipient; and
4. The recipient must have compiled an outstanding record of community service which, apart from his or her specific identification as a physician, reflects well on the profession of medicine.

### **NDMA Friend of Medicine Award**

The Friend of Medicine Award was created in 1999 to formally acknowledge non-physician residents of our state who “have distinguished themselves by serving as effective advocates for health care, patient services, or the profession of medicine in the state of North Dakota.”

#### **Criteria**

1. Must be either living in or operating a business enterprise in the state;
2. Must not be a doctor of medicine or osteopathy; and
3. Must have distinguished himself or herself by serving as an effective advocate for healthcare, patient services, or the profession of medicine in the state of North Dakota.
