

## Submit a Policy Issue

At the 2018 NDMA Annual Meeting, the House of Delegates voted to temporarily suspend the House of Delegates and replace it with a more open format through a Policy Forum.

The new format allows all NDMA members to participate in the discussion process. It is designed to allow broad member input, feedback and ideas on critical health policy issues facing North Dakota physicians and care provided to their patients.

This is your opportunity to bring issues to the attention of the NDMA so that further discussion can take place at the NDMA 2022 Annual Meeting during the Policy Forum discussion.

**Issues that are being submitted for consideration at the NDMA Policy Forum should be submitted by Friday, September 16<sup>th</sup>, 2022 to the NDMA office by 5:00 pm C.T.**
